Consulting Arborist Providing Service in Iowa

Arborists are persons that specialize in the management and care of individual trees. A professional arborist is knowledgeable about tree care and usually has formally studied in the area of arboriculture, forestry, horticulture, and/or has had extensive training in the area of arboriculture through workshops and short courses. Homeowners in lowa may need the services of a consulting arborist to give recommendations or evaluate situations dealing with individual trees on their property.

A consulting arborist usually does not perform actual tree care work, but he or she is hired to give recommendations on a variety of tree management topics. The types of services that consulting arborists often provide include: individual tree value appraisal, tree problem diagnosis, evaluation of potential hazard trees, tree selection and general tree care recommendations, and recommendations for prevention of tree damage during construction projects.

Information in this publication includes name of firm or individual, address and phone number and services provided. The last column of the information is titled "Work Area" which indicates that vendor is willing to work anywhere in Iowa (State) or only in specific areas of the state (NE, SE, NW, SW, CTL (Central)). Vendors with a certified arborist on staff are identified with an asterik. No claim is made that this list is complete. No warranty as to the quality of services provided by these firms and individuals should be implied. This compilation is made available only to offer a list of contacts for property owners who may wish to secure such services.

Corrections, deletions, or additions should be sent in writing to Tivon Feeley, Forestry Extension, 339 Science II, Iowa State University, Ames, IA 50011-1021 or phone 515/294-6739.

Compiled by Tivon E. Feeley, Forestry Extension
